

In times of disaster, most of us have an immediate desire to help, however we can.

National Disaster Photo Rescue encourages you to consider joining our team of volunteers who have found a unique way to reach out and serve those impacted by natural disasters.

Are you interested in saving and preserving the tangible memories of individuals who have, in most cases, experienced a major loss?

We are currently seeking individuals to aid in our Lost Photos of Van, Texas Tornado project.

Training dates are scheduled for August 3-5 in Van Texas.

Please sign up by July 17th!

Simply click on the word *volunteer* on the Lost Photos of Van Texas Tornado Facebook page, visit NationalDisasterPhotoRescue.org to volunteer or donate.
